

MILLION DOLLAR YEAR IN COUNTY

For First Time in History Expenses
Here Mounted Above That
Figure During 1920

EXPENDITURES ARE \$1,014,347

Figures Reveal 80 Cents of Every
Dollar Go For Schools and Roads*
—5 Year Comparison.

Last year was a million dollar
year in Rush county.

There formerly was considerable
comment on the first billion dollar
congress, but now a few billion more
or less makes no difference in the
annual appropriations.

The fact that Rush county spent
over a million dollars during 1920
may be a surprise to most people,
but it is predicted that Rush county's
expenses are not likely to run
under that sum again.

The figures reveal that eighty
cents out of every dollar paid in
taxes in Rush county goes for roads
and schools. The popular idea that
the state gets a good share of the
taxes is not now and never was true
because the sum paid the state during
1920 as its part of the taxes
has increased less than a thousand
dollars during the last five years.

Comparisons are made on a five
year basis because it was in 1915
prices began to mount.

There was expended during the
year 1920, according to the balance
sheet of the county treasurer,
Charles A. Frazee, the sum of
\$1,014,347.58. In 1915 the expendi-
tures amounted to \$496,890. This
makes clear that the county's ex-
penses in the last half decade have
more than doubled.

There was collected from all
sources by the county treasurer dur-
ing the year just closed the sum of
\$1,111,525.34, which includes a bal-
ance of \$80,596.90 carried over
from 1919. This makes a net col-
lection of \$1,030,928.44, and dis-
closes that the county paid its way
during the year and has a nest egg
for 1921 amounting to \$16,580.86,
not counting the balance from 1919.

The increased cost of everything
is reflected in the advance in the
cost of county government during
the last five years. Expenditures
from the county fund in 1915
amounted to \$51,941.28 and last
year they were \$83,352.58.

The assertion that four-fifths of
the money paid in taxes goes for

ator Penrose personally in charge

ROBERT ABELS IS DEAD OF INJURIES

Nature of Accident At Government
Air Field, Fairfield, O., Not
Disclosed

AUNT RECEIVES THE NEWS

Robert Abels, age 20 years, son
of Mrs. Nina Abels, who was re-
ported yesterday to be seriously in-
jured at Fairfield, O., where he was
stationed in the aerial service of
the government, died this morning,
according to a message received
this afternoon by his aunt, Mrs.
Al Robertson of 334 East Tenth
street.

The young man served four years
in the navy, and was honorably dis-
charged about a year ago, when he
then enlisted in the air service, and
was sent to the Fairfield station in
Ohio. Mrs. Abels, his mother, has
been living in Indianapolis, and re-

son, 334 East Tenth street, where
the funeral will be held, the exact
day or time, not having been ar-
ranged.

DAN CUPID DOES BIG BUSINESS DURING 1920

Two Hundred and Two Marriage
Licenses Are Issued as Compared
With 179 in 1919

MANY HUNTING LICENSES

Dan Cupid kept apace with the
times in 1920, when during the year
202 couples were granted licenses
to wed by the county clerk, Loren
Martin, which is an increase of 23
over the year before, when 179 li-
censes were issued.

September broke the records for
1920, and took the honors from
June, which is the month of brides.
During September 22 licenses were
issued, and in the year before Nov-
ember held the record, with 31 li-
censes. February was the low month
for marriages, when only 7 were ob-
tained, and for the year before the
tables turned, when September was
the low mark with only 8 licenses.

The total for the year by months,
is as follows, during 1920: January
12; February 7; March 15; April
20; May 20; June 17; July 16; Au-
gust 19; September 22; October 20;
November 13 and December 21. The
monthly average is 17.

A run was made on hunting li-
censes during December, when 79
were issued, but November held all
records, when 268 were issued dur-
ing the month.

Nineteen Hundred Twenty-One

—Year Of Our Lord—The Daily Republican Greet's You.

In Your birth we see the bright new star of even a better day.
With faces front and courage strong, we greet you and pledge
to you our faith—happy in the thought that it is our privilege to
live and serve.

You bring us confidence and hope. With your birth we live
anew, strengthened by a realization of our many blessings.

How glorious is Your promise in contrast with the New Year's
Days so lately passed.

Where they brought war and famine You Promise peace and
plenty; where they produced death and heartaches, you beckon to
paths of life, truth and love; where they shackled labor to destruc-
tion, you reward service with peace.

We are thankful that Your coming finds an ever-widening
peace on earth; that commerce, finance and labor, so essential to
the welfare of man, are gradually regaining the steady tread of
peaceful stability—and that we again see blue sky peeping through
the war-born clouds of doubt and uncertainty, all of which gives us
Faith in You, and we can agree with Edgar A. Guest, who says—

I believe in the world and its bigness and splendor;
That most of the hearts beating round us are tender;
That days are but footsteps and years are but miles
That lead us to beauty and singing and smiles;
That roses that blossom and tollers that plod
Are filled with the glorious spirit of God.

I believe in the paths that today I am treading,
That I shall come safe through the dangers I'm dreading;
That even the scoffer shall turn from his ways
And some day be won back to trust and to praise;
That the leaf on the tree and the thing we call Man
Are sharing alike in His infinite plan.

PROSPERITY TO BLOSSOM AGAIN

Optimism Rules in Outlook For 1921,
According to Government Offi-
cials and Others

GOOD SIGNS POINTED OUT

Decrease in Buying of Luxuries and
Increase in Purchasing of
Stocks Held Good Sign

(By United Press)

Washington, Jan. 1.—Prosperity
like the flowers of summer will
bloom again in the spring. Business
depression has begun to leave.

This, according to government offi-
cials, is the forecast for 1921. If
it is true that the forecast will meet
the plans it will result in employ-
ment or thousands of workers,
lower rates for consumers and also
end the great nation's buyers' strike
in this country.

Ethelbert Stewart, government
price expert, believes that the 1921
prices should be far lower than
those of the war days. Business de-
pression would soon disappear if
manufacturers and retailers would
give up the idea that they should
cling to war prices. The buying pub-
lic is in need of almost every nec-
essity.

The optimistic predictions of the
government officials and business
men is for prosperity based on fac-
tors now developing. Some of the
optimistic factors are as follows:

1—Government receipts from lux-
ury taxes will fall far below that of
former years.

2—Instead of luxuries the public
is buying bonds and stocks. Sales
of liberty bonds are increasing over
that of last year.

3—Food prices are declining to
the lower level as the result of the
bumper crops harvested in this
country this year.

4—Retail prices are undergoing a
steady decline, according to reports
from 53 cities.

Some of the pessimistic factors
are as follows.

A—Almost 9,000 business failures
in the year of 1920 as compared
with 6,500 during the preceding
year.

B—Closed factories including tex-
tile, shoes and automobiles and part
time operation of practically all
plants.

C—Falling prices for raw cotton
and general reduction on farm pro-
ducts, including wheat and corn.

E—Unemployment.

STRIVES TO SAVE THE SAND DUNES

Lieber Will Ask Legislature to Ap-
propriate Money to Make State
Park on Waste Area

IN NORTHERN PART OF STATE

Are Considered a Marvel of Nature
and Would Make Ideal Place
For Public Playground

(By United Press)

Indianapolis, Jan. 1.—An effort
to preserve the sand dunes of In-
diana as a great national playground
will be made before the Indiana
legislature this month by Hoosiers
interested in the conservation of the
state's natural resources. The law-
makers will be asked for \$1,000,000
for his work, with the stipulation
that an equal amount be subscribed
by the public.

The dunes are east of Chicago and
south of Gary, the city which
sprang up like a mushroom on the
grounds of the steel industry and
carved away many of the dunes.
They are 200 miles from the cen-
ter of population and it is the plan
to furnish a place of recreation,
particularly for the millions of peo-
ple from Chicago and Great Lakes
regions.

Scientists and public spirited per-
sons have endeavored to have the
government set aside the dune land
as a national park, but without ap-
parent success. Richard Lieber, di-
rector of the state conservation de-
partment, is a new champion of the
movement and plans to place the
matter before the general assembly.

"The dunes are the one big and
last opportunity to furnish a great
recreational outdoors for the mil-
lions of America's second largest
city and of the northern Indiana
Indiana industrial regions," Lieber
said.

Lieber declared that his program
calls for a park about eight miles
along Lake Michigan and extending
inland more than a mile.

NEW RULING CHANGES SPECIAL DELIVERY

Postoffice Will Not Require Receipt
For Letter and Packages Sent
Special Delivery

WON'T GUARANTEE DELIVERY

An order issued by the postoffice
department, which was effective to-
day, abolishes a signed receipt for a
special delivery letter or parcel, and
efforts will be made to place this
class of delivery where it was origi-
nally intended, to expedite delivery,
but not insure delivery.

Heretofore all special delivery let-
ters required the signing of a re-
ceipt, thus insuring in a way the
delivery of the letter. The new or-
der does away with the receipt and
the special delivery boy is only re-
quired to place the letter in the us-
ual mail receptacle or leave at the
store or place of business in case it
cannot be delivered in person.

The postal order says this will re-
vert the service to what it was
originally intended to be. The special
delivery, the postal order says,
is for the expediting of delivery and
not a guarantee of delivery. The
postoffice authorities point out that
the registry and insurance branches
of the postal service are for the
guaranteeing of delivery and not
special delivery. So beginning today
special delivery letters will be deliv-
ered strictly as such, with no guar-
antee of delivery other than that ac-
cording as first class mail. Safety in
delivery will not be guaranteed and
persons using this form of service
are urged to insure their mail or
send them by registered service, in-
stead.

EXPRESSMEN WARNED AGAINST HOLDUP MEN

Wagon Drivers Carry 300 Pound
Steel Safe to All Trains to Keep
Secure All Valuables.

EXPRESS COMPANY MAN HERE

Taking a precaution against the
crime wave that is sweeping over the
country, a representative of the
American Railways Express com-
pany was here yesterday afternoon
and ordered all express drivers to
be on the lookout for bandits and to
guard themselves and the property
entrusted to them, against any per-
son who might attack the wagon
drivers while loading and unloading
express shipments at the cars.

One of the new rules, which went
into effect today, compels the driv-
ers to carry a steel safe on their
wagons at all times, and to unload
these on the trucks at the station, so
that valuable shipments, in which
money or jewelry is sent, may be im-
mediately placed in it and locked up.

The safe is heavy and has a double
barred lock which insures protec-
tion. Today the local express driv-
ers were placing the safe, unlocked,
on the trucks at the different sta-
tions, ready to receive any shipment
of money or other valuable articles
that might arrive on the train un-
expectedly.

FIRE LOSSES FOR YEAR SET RECORD

Total Amounts to \$165,667.80 and is
The Largest in The History of
The City

CLARK FIRE WAS THE BIGGEST

Heaviest Loss Previous to That
Time Was When Innis, Pearce
and Co. Factory Burned

The fire loss in Rushville during
the year just closed, broke all re-
cords for any previous year, when
a total of \$165,667.80 in property
was destroyed, with insurance
amounting in all to \$187,950, which
covers practically all losses, with
one exception.

The largest single fire for the
year occurred on January 10, when
the C. G. Clark and Sons flouring
mill was totally destroyed at a loss
of \$150,000. This fire was not fully
protected by insurance.

The largest record for fire loss
prior to 1920 in Rushville during
any single year was \$110,000, when
the Innis, Pearce and Company
furniture factory was destroyed
about 30 years ago.

The records, which are kept by
Will Moffitt, statistician for the fire
department, also reveal that last
January had more alarms than any
single month in the year, as well as
having the record for fire losses.
The department made nine runs dur-
ing January, seven of them proving
to be fires.

During 1920 the department made
47 runs, which also is a record for
runs, since the department was or-
ganized under a paid force. The
alarms consisted of 37 fires, and 10
false alarms.

Last April only two alarms were
answered, which was the lowest for
the year, and in February three runs
were made.

During December the department
answered five calls, with only a
slight fire loss for the month.

The report given out by Mr. Mof-
fitt stated that the department used
485 gallons of chemicals during the
year at the different fires.

Also during the year the firemen
raised 276 feet of ladders in order to
reach the flames.

A total of 1,260 feet of chemical
hose which is attached to the chem-
ical truck was used during the year.

TO CONDUCT REVIVAL AT ST. PAUL'S CHURCH

Dr. L. W. Munhall, Noted Lay Evan-
gelist, Will Open Campaign
Here Wednesday, January 13

CHORUS DIRECTOR IS COMING

Dr. L. W. Munhall of Philadelphia
a noted lay evangelist and one of
the most outstanding preachers of
Methodism, will conduct a revival
campaign at St. Paul's Methodist
Episcopal church beginning Wed-
nesday evening, January 13, and
continuing throughout the month, it
was announced today by the Rev.
Clyde S. Black, pastor of the church.

Dr. Munhall has held evangelistic
meetings in Rushville, Connersville
and Shelbyville with remarkable
success, as well as in larger circles.

He has gained international fame
as a revivalist and for many years
has been the teacher of the largest
Bible class in the world at Ocean
Grove, New Jersey, the national
headquarters of Methodism. Dur-
ing the summer months, he fre-
quently speaks to 12,000 and 15,000
people at the Bible school hour in
the large auditorium at Ocean
Grove.

Dr. Munhall has been associated
with the Rev. Mr. Black in revivals
before and it was through his
friendship with the local pastor
that he was persuaded to come to
a city the size of Rushville because
in recent years he has confined his
efforts to larger cities. A chorus
director will accompany Dr. Mun-
hall here and the music will be a
feature of the meetings.

or both installments will become delinquent and subject to a penalty.

The Second Installment must be paid on or before the
FIRST MONDAY IN NOVEMBER, 1921

No tax receipts will be held out until taxes are paid in full.

Extracts From the Statutes of Indiana.

That each person or taxpayer charged with taxes on a duplicate in the hands of a County Treasurer may pay the full amount of such taxes on or before the first Monday in May, or may at his option, pay one-half thereof on or before the first Monday in May, and the remaining half on or before the first Monday in November, in the manner prescribed by law. All road taxes to be added to the first installment.

When the first installment is not paid prior to the first Monday in May, the taxes for the whole year become delinquent.

The Treasurer will not be responsible for the penalty and charges on Delinquent Taxes resulting from any omission of the person paying to state definitely on what property, in whose name and in what township or corporation it was assessed.

Persons owing Delinquent Taxes should pay them at once. The late law is of such character that there is no option left the Treasurer but to enforce the collection of delinquent taxes, however much he may regret to collect the same, by sale of property.

The owner of the property on the first day of March in any year, shall be liable for the payment of all taxes of that year. The purchaser of property on the first day of March shall be considered as owner on that day.—Sec. 103.

All property, both personal and real, situated in any county shall be liable for the taxes, penalties, interests, and costs to the owners thereof, in such county, and no partial payment of such taxes, penalties, interests or costs shall discharge or release any part or portion of such property until the whole is paid; which lien shall in no wise be affected or destroyed by any sale or transfer of any such personal property.—Sec. 644, R. S.

The Treasurer has no option in rebating the penalty on taxes allowed to go delinquent. No County Order will be paid to persons owing delinquent taxes and all parties are warned against buying the same.

The Annual Sale of Delinquent Lands and Lots will take place on the Second Monday in February, 1921.

PARTICULAR ATTENTION

TAXPAYERS SHOULD EXAMINE THEIR RECEIPTS before leaving the Treasurer's office and see that they are correct. Those who have lands or other property in more than one township, must see that they have a receipt for all.

Rushville, Indiana, January 1st, 1921.

CHARLES A. FRAZEE,
Treasurer of Rush County.

be "vampire" who had been trying to graft on his brother—but that only added spice to the situation. "Out all night on a yacht with a man!"—can't you just imagine what her shocked guardians would say? And how the real "vamp" would chortle at having such a fine weapon delivered into her hands?

But they fooled them all. How? Well, that forms the fun of "Her First Elopement," the 30-knot an hour yachting comedy which will be seen at the Princess theater today. It is Wanda Hawley's latest Real-art starring vehicle. The photoplay was adapted from the story by Alice Duer Miller, who has also written "The Charm School," "Are Women People?" "Less than Kin" and a dozen other clever tales of a humorous nature.

Miss Hawley has a new leading man in the production, no less a person than Jerome Patrick, the Broadway favorite who has been seen in such stage triumphs as "By Pigeon Post" and "Marie Odile." The production also marks the return to the screen of the famous old veteran, Herbert Standing. This is his first screen appearance since his serious accident of some six months ago, just after he had finished his work in the Mary Miles Minter picture "Judy of Rogues' Harbor."

As a special New Year's Day attraction, Merle Maupin will be at the piano and Miss Martha Windenhof-fer at the violin.

An All Star Cast

Edith Storey, Wallace MacDonald, William Courtleigh, Josef Swickard, Sam de Grasse, Frederic Starr, Irene Hunt and Frankie Lee, the child actor, constitute the all-star cast of "Moon Madness" the Hawthorn production, released by Robertson-Cole, which will be seen Monday and Tuesday at the Mystic theatre.

Edith Storey, noted for her ability as an actress and her screen personality, needs no introduction, and the same might be said of the others. MacDonald, her handsome and debonair young leading man, who plays the role of an Arab lover in "Moon Madness," will be best remembered as the actor who played opposite such distinguished stars as Pauline Frederick, Olive Thomas, Mary Miles Minter, Mae Marsh, Madge Kennedy, Bessie Love and Anita Stewart.

Frederic Starr, who plays the part of an Arab Sheik, came to the screen three years ago after sixteen years on the legitimate stage.

He has appeared in many screen classics, notably with William S. Hart, Dorothy Dalton and Blanche Sweet.

Sam de Grasse and William Courtney, noted as screen "heavyies," contribute largely to the rapid

action of the picture. They have earned for themselves secure positions in the realm of the silent drama, and in "Moon Madness" they uphold their reputations gained in scores of leading photo-plays.

The Next Generation

The little children romping around will become the men and women of another generation. They will control the destiny of this community then, as we control it now.

Community betterment is always the goal of every good citizen. It is the great lubricant which causes the wheels of enlightenment to spin noiselessly and to a purpose.

To insure a better community for the future we must begin with the children of today.

If in their childhood they are

taught to differentiate between wisdom and foolishness, between the good and the bad, between right and wrong, the lessons they learn will bear golden fruit in after years, and the community we love so well will be brighter and better because of the influence they will exert upon the citizenry of their day.

Remember the little children of today, for tomorrow they will have children of their own, and the law of heredity is strong with us all.

The sun shines brightly when we push the clouds away, but the little child has not yet learned to push.

Holidays

There will be only 88 days, exclusive of Sundays, during the year 1921 when some country somewhere in the world is not celebrating a holiday of one sort or another. Even this small number of world-wide working days will be reduced by advances to other days of celebrations which would otherwise fall on Sundays. Moreover there will be further abstentions from toil for religious and other festivals not recognized as holidays by Governments or banks but which nevertheless will be participated in by many thousand men and women. Of all countries Turkey is most given to the keeping of holidays, there being twenty-six days in the year when special celebrations are held. Scotland with only five holidays, is the country most thrifty of its time.

An Improvement

Congressman Clifton N. McArthur of Oregon is the author of a resolution recently introduced to shorten

the period between the election and the seating of senators and members of congress. Under the measure the terms of new members would begin on the first day of the session of congress following their election. Inasmuch as congress always meets on the first Monday of December that would mean a delay of only a month following their elections on the first Tuesday following the first Monday in November. At present successful candidates at the November elections do not take office until December of the following year, thirteen months later, unless the president sees fit to call a special session of congress in the meantime.

Our city friends take a peculiar delight in cracking jokes at the expense of country people, but when they want to spend a week or two in complete safety from banditry they invariably hike for the tall grass.

Foreigners come to this country with the popular idea that America is a land flowing with milk and honey. It is, but they soon learn that it requires something besides m. and h. to fill an empty stomach.

If the nations of the earth ever discard their armaments they will have a devil of a lot of thrills in collecting them up again.

Latest reports from Ireland indicate that the dove of peace has gone on a ear. We believe it.

LOCALS TAKE EASY GAME AT LIBERTY

High School Basketball Team Wins Away From Home Friday Night, Using Many Substitutes

KEEPS LEAD ALL THE WAY

Rushville Second Team Loses to Brownsville, 22 to 19—Both Teams Here Next Friday

The Rushville high school basketball team added another victory last night when they went over to Liberty and came back with the big end of the 29 to 17 score. It was the eleventh victory of the season for Rushville, the locals having lost only four games so far, with the prospect good for winning all remaining games on the schedule, with one exception.

The local team did not exert themselves to win and many substitutions were made in order to give all players a chance.

Reynolds started the game at forward, and scored first from a side shot on the floor. Rushville took an early lead and was never headed by Liberty. Miller was not in uniform, and the forward positions were held by L. Headlee, Reynolds and Phillips.

When the first half ended, the score stood 14 to 5, and Liberty made a big struggle to overcome the lead, but E. Headlee for Rushville, played in big style and registered three field goals.

All substitutes offered by Rushville made good on baskets, and Davis played in good style at center, when he relieved E. Headlee.

The Liberty team works around a one man combination with Thompson, the center. This one man made 25 of the 27 points, and was good at hitting the basket on long shots from the center of the floor.

Liberty has a fighting team, and never gave up during the entire game. Odds have been against Liberty throughout the season, having lost to almost every team that they have played.

The Rushville second team did not fare quite so fortunately, and lost to the first team from Brownsville by the score of 22 to 19. The game was exciting, but Brownsville got a lead and kept about three points ahead throughout the game. The first half ended 24 to 11, and in the last half each team registered 8 points apiece, the local team not being able to tie up the score.

Both the Liberty and Brownsville teams will come here next Friday night to meet the two Rushville teams, and the second team expects to take the game from Brownsville, as well as an easy victory for the first team over Liberty.

The score and summary of the two games:

Webb Independents Defeat Hack Drivers at Webb's School, 34 to 7

"Grown-ups," mostly novices at basketball, organized two teams yesterday afternoon and journeyed to the Webb school building where they played an "exhibition" game before 200 people. One team, styled as the Webb Independents, defeated the Hack Drivers, 34 to 7. The Webb team lined up as follows: Abe Martin, center; Clyde Martin and Don Hillgoss, forwards; Lafayette Lower and O. P. Wamsley, guards. The Hack Drivers, used the following line-up: Newt Halterman, center; Charley and Vern English, forward; Ernie Linville and Paul Davidson, guards. The Webb team was captained by Bert Osborne and Andy Rea, captained the Hack Drivers, but neither attempted to play.

Following the game, all participants were brought to Rushville, where a three course banquet was served at the Hotel Scanlan.

HARTFORD CITY FALLS BEFORE MILROY FIVE

Up-Staters Prove no Match for The Lengthy Rush County Team and Lose 28 to 18

MORRISTOWN IS BOASTFUL

The Milroy high school basketball team went up in the northern part of the state last night, and showed Hartford City how to play basketball, defeating them by the score of 28 to 18.

Milroy didn't experience much difficulty in winning, and soon after the game started they scored their first point, and were never headed off by the Hartford City team. Milroy had a good lead when the first half ended and the home town team attempted to stage a "come-back" in the last half, but could not set their pace with the Rush county team.

Hartford City will play the Milroy team again on Saturday night, February 5, and an effort is being made to have the game played in this city. It no doubt would prove to be a good drawing card, as many Rushville fans would like to be given an opportunity of seeing both teams in action. Milroy will take on the Morristown team at Milroy next Friday, and the Shelby county team expects to upset the dope in these parts, by winning the game, but Milroy is not the least bit concerned over their chances of getting beat.

TAKE PEPSINCO

Sometimes in front just under the heart, sometimes around under the left side, under the ribs behind the heart it's a sharp or acute pains; sometimes a dull heavy pain, leaving soreness. It's gas on the inside generated through gaseous foods, or, because of systematic inability to properly assimilate the food, this gas soon collecting, forms a lump that causes the pain. This is only one of a dozen different indications of indigestion which PEPSINCO immediately relieves. Keep PEPSINCO handy and take it the next time.

McCRAY NOT TO INTERFERE

Four Senators in Race For President Proteem of Senate

Indianapolis, Ind., Jan. 1.—Governor Warren T. McCray says he will not interfere in the squabble of republican state senate over who is to be president proteem of the senate during the session of the legislature which is to convene Thursday. There are four active participants in the race. They are Senators Ratts, of Orange county; Nedjk, Lake county; Strode, Howard county, and Miller, Marion county.

Nedjk's chances are generally considered as definitely lessened by the fact that he hails from the Tenth congressional district, the home district of McCray, himself, and Representative Fairfield, who was appointed by McCray as a member of the legislative visiting committee.

Chicago, Ill., Jan. 1.—One hundred armed guards are patrolling the south one-half of East Chicago to enforce the quarantine of the city following the discovery of 74 cases of small pox.

MILLION DOLLAR YEAR IN COUNTY

Continued from Page One roads and schools is borne out by the following figures, comparisons of which also show how these two items of expense have increased during the five-year period.

Bond sales for the construction of new roads in 1915 amounted to \$49,814.89, and in 1920 they totaled \$160,427.59, which is almost three times as much.

For the redemption of road bonds in 1918, the sum of \$96,824.99 was expended in 1915, and the same item of expense last year was \$155,924.30.

The expense of gravel road repair in 1915 was \$27,916.02 and last year it was \$46,862.46.

Expenditures from the local tuition fund, which is used to pay the salaries of school teachers, were \$26,377.20 in 1915 and last year they were \$98,698.92.

Expenditures from the special school fund, which is drawn on for all other school expenses, amounted to \$35,946.88 five years ago, and last year they were \$122,998.94.

That a very small per cent of the taxes go to the state and that the increase has been immaterial is disclosed by the fact that the amount paid to the state in 1915 was \$14,238.04 and in 1920, \$14,963.92.

MERRY MAKING COST NATION \$60,000,000

Estimated That New Year's Celebrations Saw That Much Money Squandered in U. S.

GOVERNMENT REAPS HARVEST

Washington, Jan. 1.—Approximately \$60,000,000 was squandered in the merry making celebration of New Year's eve last night if the nation arm true to form as shown in government reports of other years.

Probably \$2,000,000 was spent at theatres, dance halls, cabarets and other public places whose proprietors figured on the night's receipts to bring them through the financially dull December.

The government, however, will coin money in the consumption tax on the nation's revel in all cases with the exception of the liquor trade.

Tax receipts were expected to net the government at least \$500,000 for the evening or 10 percent of the sum spent for this purpose.

Dinners and parties are another item for expense which probably cost \$50,000,000. Bootlegging has been unusually heavy during the last few years, according to reports received from police of the big cities.

Presentation of permits for the withdrawal of liquor from the war-houses has also been current in the last few days. The permits, however, for the withdrawal of liquor from the warehouses must be used only for non-beverages but the police believe that much of it was used as beverages.

OFFERS DISARMAMENT METHOD BY DEGREES

Harding Will Most Likely Favor Plan to Have Nations Disarm by a Gradual Program

WOULD INDUCE ALL TO JOIN

Marion, Ohio, Jan. 1.—Steps toward a gradual disarmament will be taken by President-elect Warren G. Harding during his administration, according to authoritative information here today.

The first move may be the suggestion that the world powers organize an international congress to work out a scheme which will be generally acceptable to all concerned.

This question has figures prominently in several of the most important conferences held here recently and it is known that the conclusion has been reached that that nations building large navies must be checked.

The report that reached here states that Great Britain and Japan would be induced to join in the project.

Mull the other member of the old firm, will continue at the same place. They formed a partnership in 1917 which has continued to this date, with the exception of a year when Dr. Dragoo was in the service with the 317th Ammunition train. Dr. Dragoo graduated from a veterinary college in 1912 and Dr. Mull in 1914.

MILLION DOLLAR YEAR IN COUNTY

For First Time in History Expenses
Here Mounted Above That
Figure During 1920

EXPENDITURES ARE \$1,014,347

Figures Reveal 80 Cents of Every
Dollar Go For Schools and Roads
—5 Year Comparison.

Last year was a million dollar
year in Rush county.

There formerly was considerable
comment on the first billion dollar
congress, but now a few billion more
or less makes no difference in the
annual appropriations.

The fact that Rush county spent
over a million dollars during 1920
may be a surprise to most people,
but it is predicted that Rush county's
expenses are not likely to run
under that sum again.

The figures reveal that eighty
cents out of every dollar paid in
taxes in Rush county goes for roads
and schools. The popular idea that
the state gets a good share of the
taxes is not now and never was true
because the sum paid the state during
1920 as its part of the taxes
has increased less than a thousand
dollars during the last five years.

Comparisons are made on a five
year basis because it was in 1915
prices began to mount.

There was expended during the
year 1920, according to the balance
sheet of the county treasurer,
Charles A. Frazee, the sum of
\$1,014,347.58. In 1915 the expendi-
tures amounted to \$496,890. This
makes clear that the county's ex-
penses in the last half decade have
more than doubled.

There was collected from all
sources by the county treasurer dur-
ing the year just closed the sum of
\$1,111,525.34, which includes a bal-
ance of \$80,596.90 carried over
from 1919. This makes a net col-
lection of \$1,030,928.44, and dis-
closes that the county paid its way
during the year and has a nest egg
for 1921 amounting to \$16,580.86,
not counting the balance from 1919.

The increased cost of everything
is reflected in the advance in the
cost of county government during
the last five years. Expenditures
from the county fund in 1915
amounted to \$51,941.28 and last
year they were \$83,352.58.

the money paid in taxes goes for

SEES TARIFF DEFEAT

Penrose Predicts It Will Never Get
Out of Committee

(By United Press)

Washington, Jan. 1.—With Sen-
ator Penrose personally in charge
of the fight over the emergency tar-
iff legislation, the senate ushered in
the New Year today. The finance
committee will meet Monday or
Tuesday and will consider the bill
as passed by the house, placing an
embargo on importation of many
commodities.

The senator predicted today that
the bill will never get out of the
hands of the committee. Penrose,
chairman of the committee, has ex-
pressed his disapproval of the mea-
sure. The democratic members of
the committee are opposed to it.

ROBERT ABELS IS DEAD OF INJURIES

Nature of Accident At Government
Air Field, Fairfield, O., Not
Disclosed

AUNT RECEIVES THE NEWS

Robert Abels, age 20 years, son
of Mrs. Nina Abels, who was re-
ported yesterday to be seriously in-
jured at Fairfield, O., where he was
stationed in the aerial service of
the government, died this morning,
according to a message received
this afternoon by his aunt, Mrs.
Al Robertson of 334 East Tenth
street.

The young man served four years
in the navy, and was honorably dis-
charged about a year ago, when he
then enlisted in the air service, and
was sent to the Fairfield station in
Ohio. Mrs. Abels, his mother, has
been living in Indianapolis, and re-
ceived word yesterday concerning
his condition, but no information
was disclosed as to how he was in-
jured.

Mrs. Robertson received word
this afternoon that he died this
morning at Xenia, O., following an
operation yesterday, but no details
were given concerning the cause of
the operation.

The remains will be shipped from
Xenia, O., tonight and will arrive
here in the morning on the seven o'-
clock C. & W. passenger train
from Indianapolis, and he will be
taken to the home of Mrs. Robert-
son, 334 East Tenth street, where
the funeral will be held, the exact
day of time, not having been ar-
ranged.

DAN CUPID DOES BIG BUSINESS DURING 1920

Two Hundred and Two Marriage
Licenses Are Issued as Compared
With 179 in 1919

MANY HUNTING LICENSES

Dan Cupid kept pace with the
times in 1920, when during the year
202 couples were granted licenses
to wed by the county clerk, Loren
Martin, which is an increase of 23
over the year before, when 179 li-
censes were issued.

September broke the records for
1920, and took the honors from
June, which is the month of brides.
During September 22 licenses were
issued, and in the year before Nov-
ember held the record, with 31 li-
censes. February was the low month
for marriages, when only 7 were ob-
tained, and for the year before the
tables turned, when September was
the low mark with only 8 licenses.

The total for the year by months,
is as follows, during 1920: January
12; February 7; March 15; April
20; May 20; June 17; July 16; Au-
gust 19; September 22; October 20;
November 13 and December 21. The
monthly average is 17.

A run was made on hunting li-
censes during December, when 79
were issued, but November held all
records, when 268 were issued dur-
ing the month.

Nineteen Hundred Twenty-One

—Year Of Our Lord—The Daily Republican Greet's You.

In Your birth we see the bright new star of even a better day.
With faces front and courage strong, we greet you and pledge
to you our faith—happy in the thought that it is our privilege to
live and serve.

You bring us confidence and hope. With your birth we live
anew, strengthened by a realization of our many blessings.

How glorious is Your promise in contrast with the New Year's
Days so lately passed.

Where they brought war and famine You Promise peace and
plenty; where they produced death and heartaches, you beckon to
paths of life, truth and love; where they shackled labor to destruc-
tion, you reward service with peace.

We are thankful that Your coming finds an ever-widening
peace on earth; that commerce, finance and labor, so essential to
the welfare of man, are gradually regaining the steady tread of
peaceful stability—and that we again see blue sky peeping through
the war-born clouds of doubt and uncertainty, all of which gives us
Faith in You, and we can agree with Edgar A. Guest, who says—

I believe in the world and its bigness and splendor;
That most of the hearts beating round us are tender;
That days are but footsteps and years are but miles
That lead us to beauty, and singing and smiles;
That roses that blossom and tollers that plod
Are filled with the glorious spirit of God.

I believe in the paths that today I am treading,
That I shall come safe through the dangers I'm dreading;
That even the scuffer shall turn from his ways
And some day be won back to trust and to praise;
That the leaf on the tree and the thing we call Man
Are sharing alike in His infinite plan.

PROSPERITY TO BLOSSOM AGAIN

Optimism Rules in Outlook For 1921,
According to Government Of-
ficials and Others

GOOD SIGNS POINTED OUT

Decrease in Buying of Luxuries and
Increase in Purchasing of
Stocks Held Good Sign

(By United Press)

Washington, Jan. 1.—Prosperity
like the flowers of summer will
bloom again in the spring. Business
depression has begun to leave.

This, according to government of-
ficials, is the forecast for 1921. If
it is true that the forecast will meet
the plans it will result in employ-
ment or thousands of workers,
lower rates for consumers and also
end the great nation's buyers' strike
in this country.

Ethelbert Stewart, government
price expert, believes that the 1921
prices should be far lower than
those of the war days. Business de-
pression would soon disappear if
manufacturers and retailers would
give up the idea that they should
cling to war prices. The buying pub-
lic is in need of almost every nec-
essity.

The optimistic predictions of the
government officials and business
men is for prosperity based on fac-
tors now developing. Some of the
optimistic factors are as follows:

1—Government receipts from lux-
ury taxes will fall far below that of
former years.

2—Instead of luxuries the public
is buying bonds and stocks. Sales
of liberty bonds are increasing over
that of last year.

3—Food prices are declining to
the lower level as the result of the
bumper crops harvested in this
country this year.

4—Retail prices are undergoing a
steady decline, according to reports
from 53 cities.

Some of the pessimistic factors
are as follows.

A—Almost 9,000 business failures
in the year of 1920 as compared
with 6,500 during the preceding
year.

B—Closed factories including tex-

STRIVES TO SAVE THE SAND DUNES

Lieber Will Ask Legislature to Ap-
propriate Money to Make State
Park on Waste Area

IN NORTHERN PART OF STATE

Are Considered a Marvel of Nature
and Would Make Ideal Place
For Public Playground

(By United Press)

Indianapolis, Jan. 1.—An effort
to preserve the sand dunes of In-
diana as a great national playground
will be made before the Indiana
legislature this month by Hoosiers
interested in the conservation of the
state's natural resources. The law-
makers will be asked for \$1,000,000
for his work, with the stipulation
that an equal amount be subscribed
by the public.

The dunes are east of Chicago and
south of Gary, the city which
sprang up like a mushroom on the
grounds of the steel industry and
carved away many of the dunes.
They are 200 miles from the cen-
ter of population and it is the plan
to furnish a place of recreation,
particularly for the millions of peo-
ple from Chicago and Great Lakes
regions.

Scientists and public spirited per-
sons have endeavored to have the
government set aside the dune land
as a national park, but without ap-
parent success. Richard Lieber, di-
rector of the state conservation de-
partment, is a new champion of the
movement and plans to place the
matter before the general assembly.

"The dunes are the one big and
last opportunity to furnish a great
recreational outdoors for the mil-
lions of America's second largest
city and of the northern Indiana
Indiana industrial regions," Lieber
said.

Lieber declared that his program
calls for a park about eight miles
along Lake Michigan and extending
inland more than a mile.

NEW RULING CHANGES SPECIAL DELIVERY

Postoffice Will Not Require Receipt
For Letter and Packages Sent
Special Delivery

WON'T GUARANTEE DELIVERY

An order issued by the postoffice
department, which was effective to-
day, abolishes a signed receipt for a
special delivery letter or parcel, and
efforts will be made to place this
class of delivery where it was origi-
nally intended, to expedite delivery,
but not insure delivery.

Heretofore all special delivery let-
ters required the signing of a re-
ceipt, thus insuring in a way the
delivery of the letter. The new or-
der does away with the receipt and
the special delivery boy is only re-
quired to place the letter in the us-
ual mail receptacle or leave at the
store or place of business in case it
cannot be delivered in person.

The postal order says this will re-
vert the service to what it was
originally intended to be. The spe-
cial delivery, the postal order says,
is for the expediting of delivery and
not a guarantee of delivery. The
postoffice authorities point out that
the registry and insurance branches
of the postal service are for the
guaranteeing of delivery and not
special delivery. So beginning today
special delivery letters will be deliv-
ered strictly as such, with no guar-
antee of delivery other than that ac-
cording as first class mail. Safety in
delivery will not be guaranteed and
persons using this form of service
are urged to insure their mail or
send them by registered service, in-
stead.

EXPRESSMEN WARNED AGAINST HOLDUP MEN

Wagon Drivers Carry 300 Pound
Steel Safe to All Trains to Keep
Secure All Valuables.

EXPRESS COMPANY MAN HERE

Taking a precaution against the
crime wave that is sweeping over the
country, a representative of the
American Railway Express com-
pany was here yesterday afternoon
and ordered all express drivers to
be on the lookout for bandits and to
guard themselves and the property
entrusted to them, against any per-
son who might attack the wagon
drivers while loading and unloading
express shipments at the cars.

One of the new rules, which went
into effect today, compels the driv-
ers to carry a steel safe on their
wagons at all times, and to unload
these on the trucks at the station, so
that valuable shipments, in which
money or jewelry is sent, may be im-
mediately placed in it and locked up.

The safe is heavy and has a double
barred lock which insures protec-
tion. Today the local express driv-
ers were placing the safe, unlocked,
on the trucks at the different sta-
tions, ready to receive any shipment
of money or other valuable articles
that might arrive on the train un-
expectedly.

FIRE LOSSES FOR YEAR SET RECORD

Total Amounts to \$165,667.80 and is
The Largest in The History of
The City

CLARK FIRE WAS THE BIGGEST

Heaviest Loss Previous to That
Time Was When Innis, Pearce
and Co. Factory Burned

The fire loss in Rushville during
the year just closed, broke all re-
cords for any previous year, when
a total of \$165,667.80 in property
was destroyed, with insurance
amounting in all to \$187,950, which
covers practically all losses, with
one exception.

The largest single fire for the
year occurred on January 10, when
the C. G. Clark and Sons flouring
mill was totally destroyed at a loss
of \$150,000. This fire was not fully
protected by insurance.

The largest record for fire loss
prior to 1920 in Rushville during
any single year was \$110,000, when
the Innis, Pearce and Company
furniture factory was destroyed
about 30 years ago.

The records, which are kept by
Will Moffitt, statistician for the fire
department, also reveal that last
January had more alarms than any
single month in the year, as well as
having the record for fire losses.
The department made nine runs dur-
ing January, seven of them proving
to be fires.

During 1920 the department made
47 runs, which also is a record for
runs, since the department was or-
ganized under a paid force. The
alarms consisted of 37 fires, and 10
false alarms.

Last April only two alarms were
answered, which was the lowest for
the year, and in February three runs
were made.

During December the department
answered five calls, with only a
slight fire loss for the month.

The report given out by Mr. Mof-
fitt stated that the department used
485 gallons of chemicals during the
year at the different fires.

Also during the year the firemen
raised 276 feet of ladders in order to
reach the flames.

A total of 1,260 feet of chemical
hose which is attached to the chem-
ical truck was used during the year.

TO CONDUCT REVIVAL AT ST. PAUL'S CHURCH

Dr. L. W. Munhall, Noted Lay Evan-
gelist, Will Open Campaign
Here Wednesday, January 13

CHORUS DIRECTOR IS COMING

Dr. L. W. Munhall of Philadelphia
a noted lay evangelist and one of
the most outstanding preachers of
Methodism, will conduct a revival
campaign at St. Paul's Methodist
Episcopal church beginning Wed-
nesday evening, January 13, and
continuing throughout the month, it
was announced today by the Rev.
Clyde S. Black, pastor of the church.

Dr. Munhall has held evangelistic
meetings in Rushville, Connersville
and Shelbyville with remarkable
success, as well as in larger circles.
He has gained international fame
as a revivalist and for many years
has been the teacher of the largest
Bible class in the world at Ocean
Grove, New Jersey, the national
headquarters of Methodism. Dur-
ing the summer months, he fre-
quently speaks to 12,000 and 15,000
people at the Bible school hour in
the large auditorium at Ocean
Grove.

Dr. Munhall has been associated
with the Rev. Mr. Black in revivals
before and it was through his
friendship with the local pastor
that he was persuaded to come to
a city the size of Rushville because
in recent years he has confined his
efforts to larger cities. A chorus
director will accompany Dr. Mun-
hall here and the music will be a
feature of the meetings.

or both installments will become delinquent and subject to a penalty.

The Second Installment must be paid on or before the
FIRST MONDAY IN NOVEMBER, 1921

No tax receipts will be held out until taxes are paid in full.

Extracts From the Statutes of Indiana.

That each person or taxpayer charged with taxes on a duplicate in the hands of a County Treasurer may pay the full amount of such taxes on or before the first Monday in May, or may at his option, pay one-half thereof on or before the first Monday in May, and the remaining half on or before the first Monday in November, in the manner prescribed by law. All road taxes to be added to the first installment.

When the first installment is not paid prior to the first Monday in May, the taxes for the whole year become delinquent. The Treasurer will not be responsible for the penalty and charges on Delinquent Taxes resulting from any omission of the person paying to state definitely on what property, in whose name and in what township or corporation it was assessed.

Persons owing Delinquent Taxes should pay them at once. The late law is of such character that there is no option left the Treasurer but to enforce the collection of delinquent taxes, however much he may regret to collect the same, by sale of property.

The owner of the property on the first day of March in any year, shall be liable for the payment of all taxes of that year. The purchaser of property on the first day of March shall be considered as owner on that day.—Sec. 108.

All property, both personal and real, situated in any county shall be liable for the taxes, penalties, interests, and costs to the owners thereof, in such county, and no partial payment of such taxes, penalties, interests or costs shall discharge or release any part or portion of such property until the whole is paid; which lien shall in no wise be affected or destroyed by any sale or transfer of any such personal property.—Sec. 644, R. S.

The Treasurer has no option in rebating the penalty on taxes allowed to go delinquent. No County Order will be paid to persons owing delinquent taxes and all parties are warned against buying the same.

The Annual Sale of Delinquent Lands and Lots will take place on the Second Monday in February, 1921.

PARTICULAR ATTENTION

TAXPAYERS SHOULD EXAMINE THEIR RECEIPTS before leaving the Treasurer's office and see that they are correct. Those who have lands or other property in more than one township, must see that they have a receipt for all.

CHARLES A. FRAZEE,
Treasurer of Rush County.

Rushville, Indiana, January 1st, 1921.

be "vampire" who had been trying to graft on his brother—but that only added spice to the situation. "Out all night on a yacht with a man?"—can't you just imagine what her shocked guardians would say? And how the real "vamp" would chortle at having such a fine weapon delivered into her hands?

But they fooled them all. How? Well, that forms the fun of "Her First Elopement," the 30-knot an hour yachting comedy which will be seen at the Princess theater today. It is Wanda Hawley's latest Real-art starring vehicle. The photoplay was adapted from the story by Alice Duer Miller, who has also written "The Charm School," "Are Women People?" "Less than Kin" and a dozen other clever tales of a humorous nature.

Miss Hawley has a new leading man in the production, no less a person than Jerome Patrick, the Broadway favorite who has been seen in such stage triumphs as "By Pigeon Post" and "Marie Odile." The production also marks the return to the screen of the famous old veteran, Herbert Standing. This is his first screen appearance since his serious accident of some six months ago, just after he had finished his work in the Mary Miles Minter picture "Judy of Rogues' Harbor."

As a special New Year's Day attraction, Merle Maupin will be at the piano and Miss Martha Windenhoffer at the violin.

An All Star Cast

Edith Storey, Wallace MacDonald, William Courtleigh, Josef Swickard, Sam de Grasse, Frederic Starr, Irene Hunt and Frankie Lee, the child actor, constitute the all-star cast of "Moon Madness" the Hawthorn production, released by Robertson-Cole, which will be seen Monday and Tuesday at the Mystic theatre.

Edith Storey, noted for her ability as an actress and her screen personality, needs no introduction, and the same might be said of the others. MacDonald, her handsome and debonaire young leading man, who plays the role of an Arab lover in "Moon Madness," will be best remembered as the actor who played opposite such distinguished stars as Pauline Frederick, Olive Thomas, Mary Miles Minter, Mae Marsh, Madge Kennedy, Bessie Love and Anita Stewart.

Frederic Starr, who plays the part of an Arab Sheikh, came to the screen three years ago after sixteen years on the legitimate stage.

He has appeared in many screen classics, notably with William S. Hart, Dorothy Dalton and Blanche Sweet.

Sam de Grasse and William Courtney, noted as screen "heavies," contribute largely to the rapid

action of the picture. They have earned for themselves secure positions in the realm of the silent drama, and in "Moon Madness" they uphold their reputations gained in scores of leading photo-plays.

The Next Generation

The little children romping around will become the men and women of another generation. They will control the destiny of this community then, as we control it now.

Community betterment is always the goal of every good citizen. It is the great lubricant which causes the wheels of enlightenment to spin noiselessly and to a purpose.

To insure a better community for the future we must begin with the children of today.

If in their childhood they are

taught to differentiate between wisdom and foolishness, between the good and the bad, between right and wrong, the lessons they learn will bear golden fruit in after years, and the community we love so well will be brighter and better because of the influence they will exert upon the citizenry of their day.

Remember the little children of today, for tomorrow they will have children of their own, and the law of heredity is strong with us all.

The sun shines brightly when we push the clouds away, but the little child has not yet learned to push.

Holidays

There will be only 88 days, exclusive of Sundays, during the year 1921 when some country somewhere in the world is not celebrating a holiday of one sort or another. Even this small number of world-wide working days will be reduced by advances to other days of celebrations which would otherwise fall on Sundays. Moreover there will be further abstentions from toil for religious and other festivals not recognized as holidays by Governments or banks but which nevertheless will be participated in by many thousand men and women. Of all countries Turkey is most given to the keeping of holidays, there being twenty-six days in the year when special celebrations are held. Scotland with only five holidays, is the country most thrifty of its time.

An Improvement

Congressman Clifton N. McArthur of Oregon is the author of a resolution recently introduced to shorten

the period between the election and the seating of senators and members of congress. Under the measure the terms of new members would begin on the first day of the session of congress following their election. Inasmuch as congress always meets on the first Monday of December that would mean a delay of only a month following their elections on the first Tuesday following the first Monday in November. At present successful candidates at the November elections do not take office until December of the following year, thirteen months later, unless the president sees fit to call a special session of congress in the meantime.

Our city friends take a peculiar delight in cracking jokes at the expense of country people, but when they want to spend a week or two in complete safety from banditry they invariably hike for the tall grass.

Foreigners come to this country with the popular idea that America is a land flowing with milk and honey. It is, but they soon learn that it requires something besides m. and h. to fill an empty stomach.

If the nations of the earth ever discard their armaments they will have a devil of a lot of thrills in collecting them up again.

Latest reports from Ireland indicate that the dove of peace has gone on a ear. We believe it.

LOCALS TAKE EASY GAME AT LIBERTY

High School Basketball Team Wins Away From Home Friday Night, Using Many Substitutes

KEEPS LEAD ALL THE WAY

Rushville Second Team Loses to Brownsville, 22 to 19—Both Teams Here Next Friday

The Rushville high school basketball team added another victory last night when they went over to Liberty and came back with the big end of the 29 to 17 score. It was the eleventh victory of the season for Rushville, the locals having lost only four games so far, with the prospect good for winning all remaining games on the schedule, with one exception.

The local team did not exert themselves to win and many substitutions were made in order to give all players a chance.

Reynolds started the game at forward, and scored first from a side shot on the floor. Rushville took an early lead and was never headed by Liberty. Miller was not in uniform, and the forward positions were held by L. Headlee, Reynolds and Phillips.

When the first half ended, the score stood 14 to 5, and Liberty made a big struggle to overcome the lead, but E. Headlee for Rushville played in big style and registered three field goals.

All substitutes offered by Rushville made good on baskets, and Davis played in good style at center, when he relieved E. Headlee.

The Liberty team works around a one man combination with Thompson, the center. This one man made 25 of the 27 points, and was good at hitting the basket on long shots from the center of the floor.

Liberty was a fighting team, and never gave up during the entire game. Odds have been against Liberty throughout the season, having lost to almost every team that they have played.

The Rushville second team did not fare quite so fortunately, and lost to the first team from Brownsville by the score of 22 to 19. The game was exciting, but Brownsville got a lead and kept about three points ahead throughout the game. The first half ended 24 to 11, and in the last half each team registered 8 points apiece, the local team not being able to tie up the score.

Both the Liberty and Brownsville teams will come here next Friday night to meet the two Rushville teams, and the second team expects to take the game from Brownsville, as well as an easy victory for the first team over Liberty.

The score and summary of the two games:

FIRE LOSSES FOR YEAR SET RECORD

Continued from Page One

This hose is 2 1/2 of an inch in diameter.

The regular water hose is 2 1/2 inches in diameter, and total of 8,200 feet was laid during the year. If this hose were stretched out in one line, it would extend for over a mile and a half.

The fire department is composed of five men, who are on duty all of the time, with the exception of one day off each week for each fireman. The company is headed by chief Joe Williamson, assistant chief, John Willis, and firemen Moffitt, Geren and Downey. The steam engine is held in reserve, to be used in case of a large fire, and Henry Gregg is the engineer, who is paid when the engine is called into use.

HARTFORD CITY FALLS BEFORE MILROY FIVE

Up-Staters Prove no Match for The Lengthy Rush County Team and Lose 28 to 18

MORRISTOWN IS BOASTFUL

The Milroy high school basketball team went up in the northern part of the state last night, and showed Hartford City how to play basketball, defeating them by the score of 28 to 18.

Milroy didn't experience much difficulty in winning, and soon after the game started they scored their first point, and were never headed off by the Hartford City team. Milroy had a good lead when the first half ended and the home town team attempted to stage a "come-back" in the last half, but could not set their pace with the Rush county team.

Hartford City will play the Milroy team again on Saturday night, February 5, and an effort is being made to have the game played in this city. It no doubt would prove to be a good drawing card, as many Rushville fans would like to be given an opportunity of seeing both teams in action. Milroy will take on the Morristown team at Milroy next Friday, and the Shelby county team expects to upset the dope in these parts, by winning the game, but Milroy is not the least bit concerned over their chances of getting beat.

PLAY "EXHIBITION" GAME

Webb Independents Defeat Hack Drivers at Webb's School, 34 to 7

The Webb team was captained by Bert Osborne and Andy Rea, captained the Hack Drivers, but neither attempted to play.

CARUSO CRITICALLY ILL

Feared "Golden Voice" May Never be Heard Again on Stage

New York, Jan. 1—Fear was expressed here that the "golden voice" of Caruso may never again be heard on the operatic stage. Despite advice from the bedside that he is better following two operations on the patient, who is suffering with pleurisy, the feeling is growing among friends and admirers that the series of mishaps of which he has been a victim and which have culminated in pleurisy, may mark the beginning of a decline in his musical career and the most beautiful tenor voice the world has ever heard.

McCRAY NOT TO INTERFERE

Four Senators in Race For President Proteem of Senate

Indianapolis, Ind., Jan. 1.—Governor Warren T. McCray says he will not interfere in the squabble of republican state senate over who is to be president proteem of the senate during the session of the legislature which is to convene Thursday. There are four active participants in the race. They are Senators Ratts, of Orange county; Nedji, Lake county; Strode, Howard county, and Miller, Marion county.

Nedji's chances are generally considered as definitely lessened by the fact that he hails from the Tenth congressional district, the home district of McCray, himself, and Representative Fairfield, who was appointed by McCray as a member of the legislative visiting committee.

MILLION DOLLAR YEAR IN COUNTY

Continued from Page One
roads and schools is borne out by the following figures, comparisons of which also show how these two items of expense have increased during the five-year period.

Bond sales for the construction of new roads in 1915 amounted to \$49,814.89, and in 1920 they totaled \$160,427.59, which is almost three times as much.

For the redemption of road bonds in 1918, the sum of \$96,824.99 was expended in 1915, and the same item of expense last year was \$155,924.30.

The expense of gravel road repair in 1915 was \$27,916.02 and last year it was \$46,862.46.

Expenditures from the local tuition fund, which is used to pay the salaries of school teachers, were \$26,377.20 in 1915 and last year they were \$98,698.92.

Expenditures from the special school fund, which is drawn on for all other school expenses, amounted to \$35,946.88 five years ago, and last year they were \$122,998.94.

That a very small per cent of the taxes go to the state and that the increase has been immaterial is disclosed by the fact that the amount paid to the state in 1915 was \$14,238.04 and in 1920, \$14,963.92.

MERRY MAKING COST NATION \$60,000,000

Estimated That New Year's Celebrations Saw That Much Money Squandered in U. S.

GOVERNMENT REAPS HARVEST

Washington, Jan. 1.—Approximately \$60,000,000 was squandered in the merry making celebration of New Year's eve last night if the nation arm true to form as shown in government reports of other years.

Probably \$2,000,000 was spent at theatres, dance halls, cabarets and other public places whose proprietors figured on the night's receipts to bring them through the financially dull December.

The government, however, will coin money in the consumption tax on the nation's revel in all cases with the exception of the liquor trade.

Tax receipts were expected to net the government at least \$500,000 for the evening or 10 percent of the sum spent for this purpose.

Dinners and parties are another item for expense which probably cost \$50,000,000. Bootlegging has been unusually heavy during the last few years, according to reports received from police of the big cities.

Presentation of permits for the withdrawal of liquor from the warehouses has also been current in the last few days. The permits, however, for the withdrawal of liquor from the warehouses must be used only for non-beverages but the police believe that much of it was used as beverages.

OFFERS DISARMAMENT METHOD BY DEGREES

Harding Will Most Likely Favor Plan to Have Nations Disarm by a Gradual Program

WOULD INDUCE ALL TO JOIN

Marion, Ohio, Jan. 1.—Steps toward a gradual disarmament will be taken by President-elect Warren G. Harding during his administration, according to authoritative information here today.

The first move may be the suggestion that the world powers organize an international congress to work out a scheme which will be generally acceptable to all concerned.

This question has figures prominently in several of the most important conferences held here recently and it is known that the conclusion has been reached that that nations building large navies must be checked.

The report that reached here states that Great Britain and Japan would be induced to join in the project.
